October 8, 2010

Director of Regional Projects NSW Department of Planning GPO Box 39 SYDNEY NSW 2001

Attention Mr John Phillpot, Mr Alan Bright,

Dear Alan,

#### Re: Request to Modify a Major Project – 05 0106 SunnySide - Lot 7 DP 10669956 Banyula Drive, OLD BAR

In accordance with our email of September 16 and 17, 2010 please find enclosed a duly completed application form, a cheque value \$750 as the fee and a copy of the email from Council.

As you can see the Council engineers have requested we formally amend the road widths table and have provided an alternate table for inclusion in the modification of Clause B13a).

In addition we would appreciate the adjustment of clauses B1 and E17.

We understand that Greater Taree City Council are seriously considering that open space in this and the adjoining Precinct 2B may be dedicated to an alternate entity made up of, among others, elders of the Biripi people known as the Guiwan Cultural Elders Association.

To this end we believe a modification that would see the land dedicated to Council "or an alternate entity approved by Council" may be appropriate, should Council wish to go ahead with their plans.

The construction of the works in the open space will generally parallel the construction of the roads & drainage required of each stage of the development. For this reason the requirement to dedicate all open space land prior to issue of Stage 2 construction certificate is not really appropriate. Might we suggest that wording similar to the Statement of Commitments, "or at a time acceptable to Council" may be added into the abovementioned clauses to make the dedication work within the bounds of construction of each stage of development.

We trust that these modifications of the Project Approval clauses may be available and look forward to a favourable outcome. Should you wish to discuss any of these items feel free to phone or email Grant on 65521566 or grant@mcglashancrisp.com.au

Yours faithfully

Subject:

FW: TRIM: Sunnyside subdivision, Precinct 2A, Old Bar, GT6844

#### Grant,

Greater Taree City Council Development Engineer's have noted that there is discrepancy in the road widths in the approved plans. The road widths approved in PART A-ADMINISTRATIVE CONDITIONS, b)Plans differs from those detailed in PART B Table a). (See; Project Approval MP 05\_0106, SCHEDULE 2, CONDITIONS OF APPROVAL, PART A-ADMINISTRATIVE CONDITIONS, A3 Development in accordance with plans, b)Plans, and PART B - PRIOR TO THE ISSUE OF CONSTRUCTION CERTIFICATES, ENGINEERING AND ROAD WORKS, B13 Civil Works Table a).)

It is envisaged that the stages of construction may continue for around 10 years subject to demand. Due to this conflicting information in the approval, Council Development Engineers preference is for a modification to be submitted so that this point be formally amended. The following table should replace Table a) in the ENGINEERING AND ROADWORKS B13 Civil Works section of the approval:

Road No	Hierarchy	Carriageway Width (Metres)	Road Reserve Width (Metres)
1,1a	Collector	11	19
1b	Local Street	9	18
2	Local Street	9	18
За	Local Street	8	16
3b	Shareway	5/7.5	12
4,4a	Access Place	7.5	15
4b	Shareway	5/7.5	12
5, 5a	Access Place	7.5	15
5b	Shareway	5/7.5	12
6	Local Street	9	18
7	Local Street	8	16
8, 8a	Local Street	8	16
8b	Shareway	5/7.5	12
9	Local Street	8	16
10	Local Street	8	16

The original plans were carried out based on AUSPEC design Specification which was current at the time. These road widths and design specifications are acceptable to Council, as they are consistent with neighbouring and adjoining roads. They do not lessen the level of service to the motorist or resident, or incur additional maintenance to Council. There is minor variation to these road widths in the current version of AUSPEC, due to changing trends, however this is not to the detriment of Council, road user or resident.

Will Barr Development Engineer **GTCC** 

Lisa.

We have considered the possible wording of A2 Staging in the approval.

Please consider the following: -

"The Staging is to be undertaken generally in accordance with Drawing No 05 Staging Plan. Construction Certificates may be made up of more than one stage.

Open Space and sections of the land adjacent the stages are to be dedicated to Council, or another entity acceptable to Council, prior to release of the final subdivision certificate for each stage or at a point of time acceptable to Council."

I think the Subdivision Certificates in A2 are covered in A7 however as discussed, the stages are often broken up into smaller lot releases. Accordingly A7 might read in part "must be obtained from the consenting Authority for each stage, or part thereof, of the subdivision before the registration of a plan...." (You might prefer to use or part stage in lieu of part thereof.)

A10 in part might also read:- "are to be dedicated to Council, or another entity acceptable to Council, in accordance with the..."

We consider B1 a bit erroneous in that the residual allotment consists of Lot 99 to 106, 121 to 134, 141 to 146, 163 to 166, 176 to 179, 185 to 189 and 194 & 195 a portion of wetlands no 571 plus other residential land off the end of Corkwood Street to the north east of the Staging Plan. The Open Space allotment adjacent the development however can be seen quite clearly on the attached Staging Plan and may be dedicated to Council, or another entity acceptable to Council, as each stage to the works are completed.

As discussed the Open Space adjacent each stage could be dedicated as the adjacent area develops. For example swales to be installed to protect the saltmarsh are to be installed along with construction of for example Stage 8. We consider that it would be preferable that this remain in the hands of the developer until the construction is completed and the ground works stabilised.

As in A2 above B1 might read.

"Open Space and sections of the development land adjacent the stages are to be dedicated to Council, or another entity acceptable to Council, prior to release of the final subdivision certificates for each stage or at a point of time acceptable to Council."

Similar to A7 Clause E4 might in part might read "The plan of Subdivision for each stage, or part thereof (or part stage), of the project....
a) may read in part "..have been paid for the relevant lots to be released."

We trust that these comments and the information provided will assist you with your deliberations and the department will provide a favourable response to our application for modification.

If you have any further queries please don't hesitate to email or phone Grant on 6552 1566.

Regards Grant Calvin McGlashan & Crisp Pty Ltd Ph 6552 1566 - Mobile 0428 512626. Enquiries to:

Garry Wray
Project Coordinator
Guiwan Cultural Elders Aboriginal Associated Corporation
Guiwan Cultural Enterprise
PO Box 95
OLD BAR BEACH NSW 2430

Dear Garry

## POSSIBILITY OF AN ABORIGINAL CULTURAL HERITAGE TRAIL NETWORK IN THE OLD BAR/WALLABI POINT AREA

Following on from our conversation today I am writing to confirm my understanding of a proposal the Guiwan Cultural Elders Aboriginal Associated Corporation are currently working on in the Old Bar/Wallabi Point area, and the Precinct 2B Old Bar area in particular.

As the Precinct 2B Old Bar rezoning is nearing gazettal, it is my understanding that the Corporation is investigating the possibility of persuading landowners to dedicate land to the Corporation in exchange for tax offsets that may be available under taxation legislation.

This manner of obtaining the land is now being pursued by the Corporation as a result of Council being unable to be in a position to include the environmental corridor within Precinct 2B within the Old Bar Development Contributions Plan (Section 94) for acquisition and embellishment due to the State Government cap on contributions as well as the impost that this cost would place on development costs across the Precinct.

The Corporation is understood to be seeking dedication of the land within the corridor to undertake rehabilitation work and construct trails (foot/cycle paths), forming part of a proposed cultural heritage trail network. Sources of funding available to the Corporation to undertake this work could come from government grants, conservation agreements, Bio-Banking Agreements and the like.

Whilst this proposal appears to be able to provide greater environmental and cultural outcomes than environmental zoning of the corridor alone can achieve, Council does not have a formal policy position on this proposal, and it would appear to be a private matter between the Corporation and the landowners within the corridor.

I am happy to be kept informed of any progress you make in regard to this proposal and can be contacted on (02) 6592 5266 if required.

Yours faithfully,

9 April 2010

Theorem at an interest of a series 19 1 B. C 4-2. Takes N-W 1457

Mr Garry Wray PO Box 95 OLD BAR NSW 2430

Dear Mr Wray

Thank you for meeting with Ron Posselt, Craig Swift-McNair and myself on Wednesday 7 April 2010. You requested that I respond to two specific questions:

The legitimacy of privatisation of the APZ on the western border of Precinct 2B. 1

Council's consideration of the dedication of open space to an organisation that is an 2. eligible Tax Deductible Gift Recipient.

You are advised of the following in response to each question.

While it is understood that Red Gum Grove P/L made an offer to have APZ's for Precinct 1 2B located on adjacent land, the plan for Precinct 2B dated July 2009 adopted by Council last year, incorporates an APZ along most of the western edge of the Precinct, based upon the Bushfire Protection map on page 12 in DCP 57 - Old Bar Precinct 2B. The APZ range is 0-40m and is dependent upon the bushfire risk of the adjoining land owned by Red Gum Grove P/L. Should this bushfire risk tessen, as a result of an approval for the proposed retirement village, it may provide some additional residential opportunities within Precinct 2B.

APZ's must be within the area being rezoned unless agencies agree to this being off-site and also appearing on the title of the adjoining property. Regardless of the bushfire hazard in place at the time of rezoning, it will be the legislation in place at the time of subdivision and subsequent development that dictates APZ setbacks. The APZ's identified in the DCP are intended to have minimal impact on building design - a lesser setback may be achieved through consent by the Rural Fire Service, however the it is likely that a more costly design will be required to achieve

As you are aware Council's resolution to put the Old Bar Precinct 2B Section 94 Plan on 2. public exhibition is sought on 14 April 2010. It is estimated that to dedicate open space to an organisation that is an eligible Tax Deductible Gift Recipient would save approximately \$10 million from the S94 for purchase of the corridor and about \$2 million in drainage. Because this option may get Council under the \$20,000 cap per lot put on by the State government it is one worth serious consideration and as such, it is intended to be workshopped with Council during the exhibition period of the S94 Plan.

I trust that this response meets with your satisfaction.

Yours Sincerely

r. Flack
