Content:

We are building our new house at Georges Fair, and we strongly object to this proposal of Moorebank Waste Facility, for the following reasons:

1. Firstly, Safety - there will be hundreds of trucks travelling through Brickmakers Drive daily. This would be very dangerous, noisy, and polluted. Brickmakers Drive is a new street, with only one narrow lane in each direction. If many trucks travel through this street (the proposal shows hundreds of trucks daily), this street will soon be destructed. Residents at Georges Fair are mostly family with kids. It will not be safe at all for parents taking kids out for a walk with trucks fast-travelling around. Statistics shows that truck drivers are not the most careful drivers in the world. The NSW Roads and Maritime Services would not grant its concurrence to the proposed development having its ingress and egress from/to Newbridge Road, so why should Brickmakers Drive be granted? Investa at Georges Fair clearly stated that Brickmakers Drive is never supposed to support heavy vehicles.
2. Secondly, Noise - noise coming from the Site and from trucks will be uttermost terrible. There are already complaints about how noisy it is at this current state. I can't imagine how it would turn out if this Site is built here. Especially operation hours is from 7am to 6pm daily, even on Saturday. This is basically noisy for the whole day, because not everyone is working, some of us are staying-home parents to look after babies.
3. Thirdly, Traffic - trucks will be operating from 7am till 6pm, which means peak hours are included. Noone would want to travel with heavy trucks around during peak hours. That would be an absolute nightmare.
4. Fourthly, Air pollution - there are assessment as in the proposal, however, everything is just purely "predicted" with not very strong back-up evidence. I believe having this Site in the middle of a new community with young residents (i.e., kids) will increase the level of air pollution, and will severely affect health.

There are a lot more reasons for us to object to this proposal. We absolutely don't want our dream home at Georges Fair becomes a disaster.
