Moorebank Recycling Plant

Subject - Moorebank Recycling Plant Message - Respected Madam,

This is my second email on the Moorebank recyclers building a plant in Georges Fair Moorebank. The news item below was aired last night and with this I hope you can have a look at this and make a difference to our community.
<http://aca.ninemsn.com.au/article/8625573/housing-dream-shattered>

I really hope this email is not ignored and archived but actioned upon. We really don't feel secure in investing anywhere in Australia after seeing lack of disclosure, misrepresentation and hiding of facts.

We are one of those first home buyers who invests savings of our life in to a property and have to go through this sort of experience where we neither can stay in the place nor afford to sell and buy another. Is this issue really politically motivated? Can anyone take the responsibility of helping us? I am shocked that the Liverpool Council and NSW planning division is blind folded by risking health of their own people and playing a blame game. All we hear is everyone is opposing the project, then we are wondering why is the proposal still being considered?

Has recycling become so necessary that Government has decided to risk a common people's life? If at all there is money laundering happening and all the talks coming out during the election, is no one ready to put an end to these by demonstrating strong leadership and care for the community?

I kindly seek your involvement into this matter amidst your busy schedule, please help us.

Thanks & Regards
Ankitha
