

04 MARCH 2013

To whom it may concern,

Please consider our submission regarding the proposed Building & Construction Waste Recycling Facility at Moorebank.

Name and Address: Mr Soane Halafihi and Ms Amiria Sinisa

65 Christiansen Boulevard

Georges Fair, Moorebank

NSW 2170

Project Application #: 05\_0157

Statement: We object to the above-mentioned proposal.

Reasons:

- Quicker damage and wear to local infrastructure caused by constant heavy-duty truck usage.
- Negative impact on local housing values.
- Noise factor - even if it is limited to the day it will affect those of us who work at home or have young infants at home trying to sleep.
- Airborne dust and particles – requiring more regular maintenance on our homes than normal, and potentially repair of expensive equipment such as airconditioning units. This could also cause more longer term problems for residents and children vulnerable to respiratory health issues e.g asthmatics.
- Odours from chemicals used.
- Georges Fair is a family-friendly neighbourhood with fantastic outdoor parklands. Having an ugly back-drop like a recycling plant, even one which may be obscured behind a large wall, will be an eyesore and will cause many who invested their life-savings into creating a better lifestyle for themselves, questioning their decisions and potentially causing added stress and trauma.
