Content:

Hi. Me and my family will be building at Georges Fair which is so close the the area where the said recycling plant will be. I would like to show my objection to this as this will affect the lifestyle and environment that I was hoping for my family especially my daughter. The toxic waste that might come out off this recylcling plant will be very hazardous to all residents in the area. Georges fair is a community full of families with kids and I hope you think about them.
