Content:

We are currently living George's Fair.

It would be too many negative impacts on our residential area if the building material recycling facilities will be set up here. For example, the health issue: air pollution, building waste, asbestos, and other non-curable disease causes.

Traffic issue: I worked out to be around additional 1 to 2 heavy trucks going through the Brick maker drive intersection.

Environment issue: flooding prone area will greatly damage the already delicate Georges River eco-system.

Furthermore, the property price and land value will be greatly impacted.
