Content:
Hi,

My partner and I are in the process of building our dream home at George's Fair, Moorebank and it is heartbreaking news for us to hear about the proposed recycling facility by Moorebank Recyclers.

We have put all our life savings, time and mental health into our project home, hoping that it would all be worth it in the end but instead more stress and anguish have been bestowed on us due to the proposed recycling facility.

After many countless days and sleepless nights with decisions after decisions, we chose George's Fair to start our lives and future together - hoping to raise our children in a new development area and thought this area would be the perfect location as it was right in the middle in both directions from both our families.

Please don't turn Moorebank into a complete industrial area. There is already enough heavy traffic on Newbridge Rd, not to mention the M5 traffic congestion as well as Moorebank Intermodal - what would become of this suburb?

I am not only concern about the traffic but more concern about the health, pollution, noise and smell. Please don't let George's Fair and nearby residents be affected by this for the rest of their lives. We want to be able to live and let live not close doors and windows to stop, dust, noise and pollution into our homes and lives. We will never be able to see the light of day again if this proposal was to go ahead.

My partner and I wouldn't have stop for one sec to even consider George's Fair had we known about this proposal. This is unfair for us and the hundreds of residents and future residents of George's Fair. It is unfair because we don't have the money to back away from this now. It is unfair because we are helpless and powerless. If you can make a difference and have the power, please be our saviour of George's Fair and give us a fair go.

Thankyou.
