Content:

As a local resident who lives just within a kilometre away from the Moorebank recycling plant. I'm deeply concerned at the proposed extension of this facility.

The buildup of the heavy vehicle traffic would affect the noise and air pollution in the area. Building and concrete waste may contain traces of asbestos in the mix. The massive sand dunes of dirt sitting on the site (clearly visible from Newbridge Rd & Brickmakers Dr) are exposed under the sun without any cover. This would pose serious health danger to the residents living nearby. Dry windy weather would blow dust and nasty particles from these sand dunes. Georges Fair estate would become a dust bowl.

The air would be choked with smoke pumped out of these prime movers and trucks which would rampage through the estate 24/7. Georges Fair would be no longer a peaceful area to live.

We can't understand why the state government allows this concrete recycling plant to continue its operations next door to a growing residential area. We demand state government to take corrective action. The recycling plant must be closed and relocated elsewhere away from Georges Fair.
