Address:

Panania, NSW
2213

Content:

Materials recycling facility just off new bridge road will affect traffic in large way(especially in peak times) and noise could also be damaging for young kids by factory as there is new residential area. As moorebank has got a beautiful chipping Norton lake it will also hamper the nature's beauty. flora and fauna will be affected in negative way. moreover, the site is next to Georges river which will be affected by recycling facility wastes.

The whole area next to it is newly developed residential homes, it will definitely Not have a positive effect on these new developments.
