I strongly disagree to have materials recycling facility to build in Moorebank. These following would involve :

1. Noise - Traffic volume increase which is cause more dust and noise to our Georges Fair environment.
2. Unpleasant smell and non friendly environment

Recycle materials cause strange smell and lots people think our house are build next recycle industry which is cause house prices drop significantly. We are spending lots of money to build our brand new house here with a hope that would be beautiful and peaceful place for our family and children.

I believe new Georges Fair residents and existing existing are thinking the same.

I hope Liverpool council would be able do something to make our environment looks clean, fresh and peaceful.

your faithfully,

Georges Fair Resident
