Dear Joanna,

CONROYS GAP WIND FARM

The Conroy's Gap Wind Farm determination includes a reference to Lot 189 DP 753596. Unfortunately this lot number should refer to Lot 289 DP 753596. While the correct lot numbering is included in the Landowners Consent and this lot is included in the description of works, our Application Form included this error which was subsequently picked up by the Department in issuing the consent conditions.

Lot 289 is indicated in yellow in the plan above, the site boundary is noted in red cross-hatching. This is consistent with the diagrams included in the development application. Could you please advise what is required to correct this consent.

Sincerely,

ANDREW DURRAN
