Anthony Lonergan , of NSW, made the following submission on the project:

Mangoola Mine - Modification 6 - Extraction Rate Increase

Comments on this project

I object to the increase in production from Mangoola. This will add to the already unacceptable level of dust in the Upper Hunter and the cumulative impacts of coal mining on local communities. Adding to the salt load in the Hunter is also unacceptable and will have long term implications for the viability of irrigation farming in the valley. Enough is enough.
