mark peel, of 234 roxburgh road muswellbrook nsw 2333 NSW, made the following submission on the project:

Mangoola Mine - Modification 6 - Extraction Rate Increase

Objects to this project

Application No 06-0014 MOD 6

I Mark Peel object to the modification by Mangoola Coal,

1. extra dust with the large extension
2. blasting impacting on our infrastructure
3. could cause the loss of underground water to our registered bore.
- 4 noise & lighting will have an affect on our property.
- 5.increase dust levels on rainwater for drinking ,has to be filtered now.
6. I object to the discharge of saline water into the Hunter river, with too many mines discharging saline water the river will die.
7. we have 2 properties on Roxburgh road , Mangoola only identified 1 of the 2 the second property joins no 242 which has acquisition writes from Mt Authur for dust our property ,would go over with the cumulative affect of Mangoola extension.
