Subject: Re: Proposed Subdivision 13 Millingandi Road, Millingandi

Hi Bree,

Thank you for being patient, we have looked at this and now we can move forward by recommending that the proposal can proceed.

We recommend that in the event a significant Aboriginal site or any cultural materials surface during any earth disturbance works, that the proponent and their contractors stop works immediately and contact this office, the Eden LALC and the DECC for further management advice.

Thank You,

John Dixon
