Dear David,

Further to our telephone discussions, please find attached a request to modify a major Project Application dated 23 June 2009, submitted to the Department of Planning by **fjmt** on behalf of our client, Newcastle City Council and the Newcastle Museum for the purpose of assessment as a Minor Resubmission - Form 75W.

The indicated revision is the installation of new steel gates to the northern entrance of the site as approached from Workshop Way.

We have also pre consulted with Heritage Council of New South Wales (Rajeev Maini)

I trust this is adequate information for your assessment of the submission. Please do not hesitate to call either myself or Elizabeth Carpenter if you require any further information.

Yours sincerely,
