Bianca Thornton
Planning Officer
Industry Assessments
NSW Department of Planning and Environment

bianca.thornton@planning.nsw.gov.au

Dear Ms Thornton

Genesis Waste Management Facility Modification 7 (06_0139) Environmental Assessment

I refer to your email of 12 September 2018 to the Department of Industry (DoI) in respect to the above matter. Comment has been sought from relevant branches of Lands & Water and Department of Primary Industries. Any further referrals to Department of Industry can be sent by email to landuse.enquiries@dpi.nsw.gov.au.

The department provides the following comments for consideration in assessment of the proposal.

DoI Water

The Department notes that the detention basin is an excluded work under Schedule 1 of the Water Management (General) Regulation designed solely for the capture of dirty water and is therefore exempt from requiring a Water Access Licence. However, should the detention basin capture clean water, a licence will be required to account for the volume of clean water intercepted by the detention basin.

Yours sincerely

Alison Collaros
