

Hi Fiona

On behalf of Council no concerns are raised in regard to the proposed s75W modification of Project Approval 06_0159 sought by Visy Pulp and Paper at its Tumut Mill.

The modification involves the construction of several steel frame and colourbond clad buildings to house processes approved as part of the Mill expansion in 2007 and storage/workshop sheds. The process being the manufacture of "white top" paper.

In Council's opinion the proposal is relatively minor in the overall context of the Mill site and will have minimal environmental impacts.
