### 5. Describe the modification you propose to make to the approval

Describe the proposed modification

A minor extension to the current approval area for the purpose of additional coal extraction. The minor extension covers an area of 8ha representing an increase in area to be disturbed by 1.6%. The area consists of the removal of an old section of a coal haul road (that is no longer used) and a small area of EEC(3.7ha - HLRF community), which is to be impacted by the current approval. Drayton offer the same offset conditions (2:1) as detailed in Drayton's current consent conditions and the area offset requirements will be included in Drayton's offset strategy. There will be no increase in manning or capital investment as the modification is a small extension to the existing operation.

Your modification request may need to be accompanied by an Environmental Assessment, including plans. An electronic and hard copy of this document will be required.

Please indicate the estimated capital investment value (CIV) of the modification to the project approval or concept plan (excluding GST).
