Subject: RE: Proposed Alterations to DDG Dryers, Cooling Towers and Biofilters, MP06_0228, Shoalhaven Starches Expansion Project

Hi Stephen, Brian

I have reviewed the scoping report for the proposed modifications to DDG dryers, cooling towers, mill feed silo and biofilters. The Department considers that your scoping report identifies the key issues to be addressed in the environmental assessment (EA) for the modification. I also ask that you confirm in your EA whether there are any changes to approved production volumes and any changes to traffic volumes, movements or parking. As you have identified, air quality/odour is a key assessment issue and I encourage you to discuss the methodology for the assessment with the EPA prior to submitting the modification.

If you have any questions, please call to discuss.

Regards,
Deana.

Subject: Proposed Alterations to DDG Dryers, Cooling Towers and Biofilters, MP06_0228, Shoalhaven Starches Expansion Project

Dear Chris & Deana,

Please find attached a submission seeking the Department's requirement's for the Environmental Assessment for the proposed modification to the Shoalhaven Starches Expansion Project. This modification application will seek to:

- Reduce the number of DDG Dryers from 6 to 4;
- Slightly modify the footprint of these Dryers on the site.
- Introduce a mill feed silo and structure to feed the DDG Dryers.
- Relocate cooling towers within the site; and
- Provide an additional two Biofilters.

I understand that you have previously discussed this modification proposal with Brian Hanley of Shoalhaven Starches.

I would appreciate it if you could supply the Department's requirements with respect to this matter as soon as possible. If you require any further clarification in connection with this matter please do not hesitate to contact me.

Regards

Stephen Richardson
