Dear Ms Thornton

OEH Comment on Proposed Modification Application for Woy Woy Waste Facility, Woy Woy

I refer to your e-mail dated 6 October 2016 seeking comment on the proposed modification application (MP 06 0230 MOD 1) for the Woy Woy Waste Facility, located at 154 Nagari Drive, Woy Woy; in the Central Coast local government area. The Office of Environment and Heritage (OEH) understands that this is a modification to a previous approved Major Project (under Part 3A). The modification seeks to extend the lapse date of the project for an additional five years from 1 October 2016 to 1 October 2021.

OEU has reviewed the application with respect to biodiversity, Aboriginal cultural heritage and flooding / floodplain management matters and has no objection to the modification to extend the hours, as they have no perceived or likely impact on these matters. OEH requests that the Department ensures the following plans were prepared and implemented as part of the original approval for the initial proposal:

1. Soil, Water & Leachate Management Plan (since the retention ponds are in close proximity to Patonga Creek, Brisbane Water National Park)
2. Vegetation Management Plan and Habitat Offset Package.

If you require any further information regarding this matter please contact Steve Lewer, Regional Biodiversity Conservation Officer, on 4927 3158.

Yours sincerely

17 OCT 2016
