Dear Mr Hartcher,

**Woodlawn Alternative Waste Technology Project (MP 06_0239 Mod.1)
Proposed Modification (Mod.1)**

I refer to your letter dated 16 December 2013 requesting advice from the Department of Primary Industries (DPI) in respect to the above matter. Thank you also for your agreement by email dated 23 December 2013 to an extension of time given staff leave in this period.

Comment by Agriculture NSW
Agriculture NSW advise no issues.

For further information please contact Wendy Goodburn, Resource Management Officer (Goulburn office) on 4828 6635, or at: wendy.goodburn@dpi.nsw.gov.au.

Comment by Fisheries NSW
Fisheries NSW advise no issues.

Comment by NSW Office of Water
The NSW Office of Water has considered the proposal in terms of its statutory obligations under the Water Management Act 2000 and has no objection to the modifications proposed.

The Environmental Assessment (EA) indicates some minor changes to water supply sources via the capture of up to 1ML of additional rainfall runoff which will occur from the modifications to the site layout. However, the drawing of water from the Willeroo Borefield remains the primary water source for the operation. The water

demands and supplies for the modified processing operations identified, remain within the company's existing licensed entitlement.

The EA also indicates some modifications to existing water infrastructure being a reduction in the capacity of the leachate storage dam and a 0.5 ML increase in the capacity of the stormwater dam (to 5.0 ML). Again, these modifications are considered minor and do not require any licensing action.

For further information please contact David Zerafa, Senior Licensing Officer (Nowra Office) on 4429 4441 or at david.zerafa@water.nsw.gov.au.

Comment by Crown Lands

Crown Lands advise no issues.
