Dear David,

We have now had the opportunity to review this matter and make the following comments:

- Notwithstanding the PAC decision to grant consent to the Warkworth Extension Project and the relatively minor nature of the modifications, Singleton Council remains opposed to the Project.
- We are aware the Bulga Milbrodale Progress Association has requested an extension in time to make a submission to 19th October 2012. Singleton Council has resolved to support where possible the BMPA in its appeal currently before the Land and Environment Court. To this end we support their request to extend the period in which they may make a submission. Furthermore, the continued desire to implement and to clarify, in this particular circumstance, the conditions of consent in deference to the Court appeal currently afoot places the Council and the community in a potentially comprising position.

Regards

Mark Ihle
