Glossary and abbreviations	ix
Summary	xv
1. Introduction	1
1.1 Background	1
1.2 The proponent	1
1.3 Location	1
1.4 Key features of the project	2
1.4.1 Power station	2
1.4.2 Gas pipeline	5
1.5 Overview of approval process	5
1.5.1 Planning approval process	5
1.5.2 Approvals required under other NSW legislation	7
1.6 Structure of this Environmental Assessment	7
1.6.1 Purpose	7
1.6.2 Environmental Assessment requirements	7
1.6.3 Structure of the Environmental Assessment	8
2. Planning and statutory context	11
2.1 Strategic planning context	11
2.2 Planning under the <i>Environmental Planning & Assessment Act 1979</i>	11
2.2.1 Application of Part 3A of the EP&A Act	12
2.2.2 Environmental Planning and Assessment Regulation 2000	12
2.3 Pipelines Act 1967	13
2.4 Environmental planning instruments	14
2.4.1 Local environmental plans	14
2.4.2 SEPPs	16
2.5 Other legislation	17
2.5.1 Commonwealth approval process	19
3. Existing environment	23
3.1 Regional context	23
3.2 Local context	25
3.3 Geology, soils and landform	27
3.3.1 Power station site	27
3.3.2 Gas pipeline route	27
3.4 Air quality	29
3.4.1 Ambient air quality	29
3.4.2 Meteorology	32
3.4.3 Topography	33
3.4.4 Sensitive receptors	33
3.5 Noise	36
3.5.1 Power station site	36
3.5.2 Gas pipeline route	38
3.6 Biodiversity	39
3.6.1 Landscape context	39
3.6.2 Power station site	39
3.6.3 Gas pipeline route	41
3.7 Hydrology and water quality	53
3.7.1 Regional hydrology	53
3.7.2 Power station site	53
3.7.3 Gas pipeline route	55
3.8 Aboriginal heritage	57
3.8.1 Regional context	57
3.8.2 Local context	58
3.8.3 Known Aboriginal heritage	58
3.9 Historic heritage	61
3.9.1 Early history	62

3.9.2	<i>Known historic heritage</i>	63
3.10	Landscape and visual environment	63
3.10.1	<i>Power station site</i>	63
3.10.2	<i>Compressor station site</i>	66
3.11	Land use and property	69
3.11.1	<i>Power station site</i>	69
3.11.2	<i>Gas pipeline route</i>	71
3.12	Socio-economic context	71
3.12.1	<i>Power station site</i>	71
3.12.2	<i>Gas pipeline route</i>	72
3.13	Traffic and transport	73
3.13.1	<i>Road network</i>	73
3.13.2	<i>Accident history</i>	76
3.13.3	<i>Public transport</i>	77
4.	Consultation	79
4.1	Consultation prior to preparation of the Environmental Assessment	79
4.1.1	<i>Government agency consultation</i>	80
4.1.2	<i>Community consultation</i>	80
4.2	Consultation during preparation of the Environmental Assessment	81
4.3	Government agency issues raised	85
4.4	Community issues raised	90
4.5	Director-General's Environmental Assessment requirements	92
4.6	Consultation: the next steps	94
4.6.1	<i>Exhibition</i>	94
4.6.2	<i>Submissions Report</i>	95
4.6.3	<i>Consultation during construction and operation</i>	95
5.	Project objectives and need	97
5.1	Project objectives	97
5.2	Strategic direction of the nation and the state in relation to energy supply and demand	97
5.2.1	<i>Australia</i>	97
5.2.2	<i>NSW</i>	98
5.3	Need for the project	98
6.	Project development and alternatives	101
6.1	Selection of proposed supply option	101
6.1.1	<i>The 'do nothing' option</i>	101
6.1.2	<i>Demand management</i>	101
6.1.3	<i>Hydro-electric power stations</i>	102
6.1.4	<i>Wind turbines</i>	102
6.1.5	<i>Coal-fired power stations</i>	102
6.1.6	<i>Open-cycle gas turbine power stations (the project)</i>	103
6.1.7	<i>Combined-cycle gas turbine power stations</i>	103
6.1.8	<i>Selected option</i>	103
6.2	Selection of power station site	103
6.2.1	<i>Overview</i>	104
6.2.2	<i>Site selection process</i>	104
6.2.3	<i>Optimisation of plant location</i>	107
6.3	Selection of the gas pipeline route	108
7.	Description of the project	113
7.1	Power station	113
7.1.1	<i>Open-cycle gas-fired turbines</i>	118
7.1.2	<i>Gas receiving facility</i>	120
7.1.3	<i>Ancillary services and infrastructure</i>	121
7.2	Gas pipeline	124
7.2.1	<i>Pipeline design and installation details</i>	124
7.2.2	<i>Pipeline mainline valves</i>	125
7.3	Compressor station	130
7.4	Operation of the project	131
7.4.1	<i>Power station</i>	131
7.4.2	<i>Gas pipeline</i>	131
7.5	Construction of the project	133
7.5.1	<i>Construction period</i>	133
7.5.2	<i>Power station</i>	133

7.5.3	Gas pipeline	136
7.5.4	Compressor station	142
8.	Environmental risk analysis	143
8.1	Key issues identified	143
8.2	Risk rating methodology	143
9.	Environmental impact assessment — key issues.....	163
9.1	Greenhouse gas emissions	163
9.1.1	Power station	163
9.1.2	Gas pipeline	166
9.1.3	Compressor station	166
9.1.4	Mitigation measures	167
9.2	Air quality	168
9.2.1	Air dispersion model	168
9.2.2	Emission sources	168
9.2.3	Power station	169
9.2.4	Gas pipeline	179
9.2.5	Compressor station	179
9.2.6	Mitigation measures	180
9.3	Noise and vibration	184
9.3.1	Adopted noise design objectives	185
9.3.2	Noise assessment approach	187
9.3.3	Meteorological data	187
9.3.4	Power station	189
9.3.5	Gas pipeline	193
9.3.6	Compressor station	194
9.3.7	Mitigation measures	196
9.4	Visual impact	199
9.4.1	Methodology	199
9.4.2	Power station	200
9.4.3	Compressor station	206
9.4.4	Mitigation measures	207
9.5	Biodiversity	210
9.5.1	Power station	210
9.5.2	Gas pipeline	211
9.5.3	Mitigation measures	216
9.6	Aboriginal heritage	219
9.6.1	Methodology	219
9.6.2	Survey results	220
9.6.3	Assessment of significance	222
9.6.4	Mitigation measures	224
9.7	Hazard and risk	224
9.7.1	Methodology	225
9.7.2	Power station	227
9.7.3	Gas pipeline	232
9.7.4	Compressor station	234
9.7.5	Mitigation measures	237
10.	Environmental impact assessment — additional impacts.....	241
10.1	Traffic and transport	241
10.1.1	Power station	241
10.1.2	Gas pipeline	245
10.1.3	Compressor station	246
10.1.4	Mitigation measures	247
10.2	Historic heritage	248
10.2.1	Methodology	249
10.2.2	Assessment of significance	249
10.2.3	Impact assessment	251
10.2.4	Mitigation measures	251
10.3	Land use and property	251
10.3.1	Power station	251
10.3.2	Gas pipeline	252
10.3.3	Mitigation measures	253
10.4	Socio-economic impacts	254
10.4.1	Power station	254

10.4.2	Gas pipeline	256
10.4.3	Mitigation measures	257
10.5	Geology and soils	257
10.5.1	Power station	257
10.5.2	Gas pipeline	258
10.5.3	Compressor station	258
10.5.4	Mitigation measures	258
10.6	Hydrology and water quality	259
10.6.1	Relevant standards and objectives	259
10.6.2	Power station	260
10.6.3	Gas pipeline	262
10.6.4	Mitigation measures	263
10.7	Waste	266
10.7.1	Power station	266
10.7.2	Gas pipeline	267
10.7.3	Mitigation measures	267
10.8	Cumulative impacts	268
10.8.1	Power station	268
10.8.2	Gas pipeline	269
10.8.3	Mitigation measures	269
11.	Draft Statement of Commitments	271
12.	Justification and conclusion	285
12.1	Project need and objectives	285
12.2	Ecologically sustainable development	286
12.2.1	Precautionary principle	286
12.2.2	Intergenerational equity	287
12.2.3	Conservation of biological diversity and maintenance of ecological integrity	287
12.2.4	Improved valuation and pricing of environmental resources	288
12.3	Summary of justification	288
12.4	Conclusion	289
13.	References	291
