LAKE CATHIE.2445.

(02) 65855134
20-12-2010.

DEAR SIR

I WISH TO LODGE A PROTEST ON THE KING AND
CAMPBELL PROJECT APPLICATION FOR AREA 14
STAGE 1B OF LAKE CATHIE. (MP07-0010)

MY CONCERN ARE THE STORMWATER RUN OFF
ON A LARGE AREA INTO A DRY RETENTION POND
THEN DRAIN INTO EXISTING STORMWATER CREEK,

WITH WATER THEN RUNNING INTO THE CREEK
THREE OR FOUR DAYS AFTER THE RAIN HAS
STOPPED.

THIS WILL ERODE THE EXISTING CREEK WHICH
IS IN BAD NEED OF REPAIR AT THE MOMENT.

IF THE CREEK WAS TO BE PIPED TO THE
EXISTING RETENTION BASIN IT WOULD STOP LOCAL
FLOODING AND TAKE THE STORMWATER FROM
DRY RETENTION POND DIRECT TO THE EXISTING
RETENTION BASIN.

YOUR

ALBERT JOHNSTON.
