Comment: QUOTE. Application No. 07_0018.
Consolidated Broken Hill (BHOP) Environment
Assessment Report.

Department of Planning
G.P.O. Box 39
Sydney NSW 2001

Dear Sir.

Following the explanations and clarifications presented at the public meeting held 20th July in Broken Hill on proposed mining and ore treatment operations in Broken Hill by C.B.H Resources and discussions with Professor Ian Plimer on 23 Inst I support the application by the company in its endeavours to commence mining operations in the City of Broken Hill.

Explanations given at the forum for the control of dust, noise and other environmental concerns are sufficient to allay and override any objections to the commencement of operations.

Providing all requirements under the NSW Mining Acts are adhered too the benefits to the community and the state will far outweigh any disadvantages caused by mining operations.

Signed.

Thomas Stanley Dineen.
