Hi Elle

With regard to the exhibited EA, the Division of Resources & Energy has no comments to make.

The proposal includes the better utilisation of oxidised ore which is supported.

Kind regards, Steve

Subject: Exhibition of EA - Rasp Mine Modification 2

Attention: Steve Cozens - Division of Resources and Energy
Exhibition of Environmental Assessment (EA)
Rasp Silver, Lead, Zinc Mine Modification (PA 07_0018 Mod 2)

Good morning,

Broken Hill Operations Pty Ltd has submitted an application to modify its project approval for the above project.

The proposed modification involves:

- increasing the operating hours of the primary crusher from between 7 am and 7 pm, seven days a week, to 24 hours a day, 7 days a week; and
- transporting up to 60,000 tonnes of crushed ore per year via road for off-site processing.

These modifications would not increase the amount of ore extracted and crushed at the mine.
