Content:  
 To the NSW Department of Planning and Infrastructure,

This submission is on behalf of Gamarada Indigenous Healing and Life Training Ltd. We are a community group that meet each week to support each other in dealing with the aftermath of loss of land, culture, connection and continued grief that has persisted for over 220 years.

We make strong objection to the proposal submitted by Apex Energy to extend their licence to destroy the sacred, beautiful and bountiful area of the Northern Illawarra escarpment that has been cared for by our brothers and sisters of the Wodi Wodi and Dharawal people, the traditional owners of this land, for thousands of years. It is absolutely wrong for this to be destroyed with 150 gas wells, roads and infrastructure. It is also totally wrong to threaten the safety of one of our key water supplies for growing Sydney.

The members of Gamarada urge the NSW Government to SAY NO to Apex Energy and act on the voice of the community of both Aboriginal and non-Indigenous people of the Illawarra, Sydney and the entire nation. We all want the government to put the health and wellbeing of the people, water and land at the top of the agenda- not at the bottom.

Thank you.
