Thirroul, NSW  
2515

**Content:**

CSG mining is another name for destroying our precious resources and making us all sick. Who cares how many jobs it will create when it makes people sick. Just looking at the wells in Queensland from the air is shocking: it's not just the wells they dig they destroy hundreds and hundreds of kilometers of land with transport and infra structure. The mere suggestion is an insult to citizen's intelligence and conscience. Barry O Farrel promises one thing and then does another.

People around here from all parties and backgrounds will not tolerate this.
