Content:

Dear Sir/ Madam

I write to register my objections to the proposed Apex CSG development in the Illawarra region. For several generations, members of my family have lived in the Illawarra region. My background is agricultural & I have serious concerns about the risk posed by CSG to groundwater systems and therefore both agricultural productivity & human health. Before CSG proceeds, I strongly believe that it is the ethical responsibility of Apex Energy to ensure that objective scientific evidence proves that CSG poses no risk to groundwater systems, future agricultural use of the land affected & human health in the area.

Yours sincerely  
Kate Crosbie
