REAL PROPERTY DESCRIPTION

Lot 109 DP 1050302

OR: detailed description of land attached: ☐

The real property description is found on a map of the land or on the title documents for the land. If you are unsure of the real property description, you should contact the Department of Lands.

Please ensure that you place a slash (/) to distinguish between the lot, section, DP and strata numbers. If the Major Project applies to more than one piece of land, please use a comma to distinguish between each real property description.

Where the Major Project is subject to Clause 8F of the *Environmental Planning and Assessment Regulation 2000* and in lieu of completing the above, a description or detailed plan of the land affected must be included with the documents required with Part 4 below.

1. Proposed Major Project – Description and other Requirements

Provide a brief title for your Project that includes all significant components. If the application relates to only part of a Project, include a clear title that describes the relevant part.

Proposed gas turbine power station consisting of an open cycle gas turbine (OCGT) or combined cycle gas turbine (CCGT) Plant at Yallah, NSW, adjacent to the Tallawarra A CCGT Power Station currently being constructed. The project comprises the following key components:

- OCGT power station plant comprising gas turbine generators and associated ancillary plant; or
- CCGT power station plant comprising gas turbine generators, steam turbine, heat recovery steam generator (HRSG), cooling equipment, high voltage transformers and associated ancillary plant
- extension of the Tallawarra A CCGT high voltage switchyard comprising landing towers, high voltage bus bars, voltage control equipment and switchgear to allow switching and management of the power from the plant to the existing distribution network.
- transmission line connections to allow evacuation of power from the switchyard to the existing 132kV network
- extension of the existing lateral connecting the Tallawarra A CCGT to the Eastern Gas Pipeline, including a new gas receiving station and gas conditioning station and line to the Tallawarra B Station
- distillate storage tank and unloading station
- demineralised water tank, loading station, production facility and interconnecting pipe work.
- emergency diesel generator
- utilisation of existing infrastructure associated with the CCGT power station including control room, administration, amenities, workshop building, car parking and on-site package sewage treatment plant and where required, additional new associated infrastructure.

Is the application related only to a part of a Project?

☐ Yes ☒ No

You are also required to provide a Project Description Report and address any matters required by the Director-General in accordance with 75E of the Act. Failure to do so may lead to your application being rejected.
