Attention Ashley Cheong

Dear Ashley,

Modification Request for Dong Wha Sawmill, Bombala
(07-0161 Mod2)

Thankyou for supplying details of the project modification proposal.

I am worried that as the mill is still quite noisy. Little progress has happened since I complained about the noise and the same thing will happen with the proposed kiln.

I am concerned that in the proposal it is stated that the kiln will be 18 MW but clearly identified on page 9 & figure 1 of the Air Quality Assessment that it is a 20MW kiln.

As all the figures are on a 18MW kiln, if it is a 20MW kiln then the impacted would be completely different.

The smell will impact on the whole town, just like the noise has.

Thankyou

Jen Tummons
