Hi Brendan,

I have only just returned from leave today so I apologise for my late response.

WorkCover does not routinely comment on development applications as WorkCover does not have an approval role in relation to the storage and handling of Dangerous Goods. There is a requirement to manage the risks associated with these activities under the Work Health and Safety legislation and Planning may wish to add a condition of compliance in line with the development application but WorkCover has no authority to require planned activities to comply with the legislation.
