Attention: Dinuka McKenzie

Dear Dinuka,

**Proposed Gas Power Facility at Bamarang  
Typographical error in major project application form**

I refer to our recent discussions in relation to the above matter.

Please be advised that there was a typographical error in the major projects application form submitted for Stage Two of the Bamarang Gas Turbine Facility (application no. 08\_0021). We have also noted that this error occurs in a copy of the application form submitted for Stage One of the facility (application no. 06\_0029) that is available on the Department of Planning's website.

In both cases, a '1' was inadvertently dropped from the deposited plan number in section 3 of the form, and subsequently in the Stage 1 and Stage 2 Environmental Assessments.

We confirm that the correct legal description of the land to which the applications relate is:

Lot 1 in Deposited Plan 127482

We also confirm that the Environmental Assessments for Stage 1 and Stage 2 relate to this property.

We trust that this adequately clarifies this issue.

Yours faithfully  
GHD Pty Ltd
