Dear Ms Mckenzie

Lismore to Mullumbimby Electricity Network Upgrade: Modification of Project Approval

In accordance with section 75W of the Environmental Planning and Assessment Act 1979 (EP&A Act), Country Energy would like to submit a request to modify the approved project. In particular, Country Energy seeks an amendment to condition 2.13 of the project approval to enable greater flexibility in achieving the desired outcome of maintaining or improving biodiversity values.

Currently condition 2.13 requires Country Energy to develop a biodiversity offset strategy that offsets biodiversity impacts through mainly compensatory plantings. Country Energy would seek amendment of this condition to enable alternative methods to compensatory plantings for improving biodiversity values, such as the use of an offset site.

Should you wish to discuss this proposed amendment further or if you require any clarification please contact me on the details below.

Yours sincerely

Jack Pike
