RECREATION CIRCLE LEGEND

1. 2m wide perimeter path (concrete)
2. New access paths to central lawn
3. Vegetable Garden: accessible planter boxes for vegetable and herb growing.
4. Storage shed integrated with vegetable garden pergola.
5. Main stairs / entryway to community centre
6. Proposed buffer planting to screen views from adjacent public wetland - combination of trees and screening shrubs.
7. Proposed lawn terraces with picnic table and benches & BBQ
8. Paved plaza / break out space for the community centre with flanking ramps on cross path axis. combination of flush and raised garden beds to screen and soften landscape walls.
9. Mobility Skills Area: Refer drawing CC13
10. Mid-level lawn with planted embankment down to lower level.
11. Child care breakout / play space.
12. Community and Child care centre.
13. Community green
14. Tennis Court
15. Multi-purpose / Basketball Court
16. Pedestrian crossing

Notes:

- Bench seats proposed at intervals along pathway for incidental seating / rest points
- All ramps and stairs to have handrails in accordance with AS 1428.
- Typical path widths are 1800mm to provide two wheelchair access.

MOBILITY SKILLS AREA KEY

- 1:4 Ramp.
- 1:8 Ramp.
- AS 1428 compliant steps. 150x300mm with handrails.
- Uneven surfaced circuit path incorporating; lipped pavers, cracked concrete, undulating asphalt, sand, gravel and corrugated iron. Single wheelchair access only at 1m wide.
- Simulated training equipment including; Step up through door frame and ramp up to open a screen door.
- Boardwalk decking with varying timber widths and joint spacing.
- Undulating lawn surface.
- Variable Stepped pathway. Combination: 30mm, 50mm and 120 to 150mm step height with handrails.
- 1:15 Ramp with 20mm hob edge.
- 1:20 Ramp with 30mm hob edge.
- Road crossing simulation / kerb ramps down to asphalt with 30mm lip at base of ramps. Grade down 150mm to simulate a kerb height. Kerb to be provided to edges of path.
- 1:12 Ramp.
- Exposed aggregate concrete (small pebble textured path).
- Rumbled pavers with deep joints i.e. cobblestones.
- Grass track.
- Shade structure with picnic settings and water bubbler.
- General garden beds.
- Bench seats

NOTE:

- All ramps and stairs to have handrails in accordance with AS 1428.
- Typical path widths are 1800mm to provide two wheelchair access.

PLANTING DESIGN INTENT

Understorey planting (shrubs and groundcovers) will seek to enliven spaces with seasonal interest, rich and exuberant flower colours and foliage textures. The themes presented are based on species hardy to the local environment, with complimentary white, mauve, and pink flower range.

Arrangements and locations are to be developed.

This theme evolves the previous proposed, predominantly 'native' character, in order to provide a richer visual experience.
