

6 March 2015

Matt Price
Lead Electrical Engineer
The National Group
Unit 12, Level 1
63 Market St
WOLLONGONG NSW 2500

Dear Mr Price,

Re: Section 75W Modification Application to MP 08_0083 for an Extension to the Lapse Date for the Approval for the National Biodiesel Soybean Processing and Biodiesel Production Facility

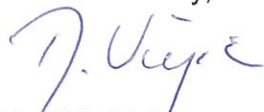

Thank you for providing the Modification Application for the extension to the lapse date for the Approval for the National Biodiesel Soybean Processing and Biodiesel Production Facility at Tom Thumb Road, Port Kembla to NSW Ports for our consideration.

NSW Ports provides in principle support for the lodgement of the application with the Department of Planning and Environment. As discussed, NSW Ports will seek the consent of Port Lessor as landowner on behalf of The National Group for the Modification Application.

It should be noted that the landowner consent of Port Lessor is not guaranteed however, NSW Ports has confirmed to Port Lessor that it has no objection to the development as proposed.

If you have any further questions please do not hesitate to contact Greg Walls, Planning & Development Coordinator on 9316 1132 or myself on 9316 1131.

Yours sincerely,

Daniela Vujic
Planning Manager
NSW Ports
