Content:

As a Singleton resident for 16 years with 3 children I support the application by the proponent to vary their conditions of approval. I can see no material impact from the proposed variation and it will improve the ongoing viability of a long term employer in the area. Approving this variation will mean keeping existing direct and indirect local jobs and it will allow Integra to continue to have a positive economic impact on the Singleton LGA.
The benefits to the overall community of this operation far outweigh the impacts.

Dear Sir,

WE oppose the application by Vale for modifications at their Integra North Pit. Firstly it is just over two years since the pit commenced mining and they are wanting change to the original E.A. and approvals. They were illegally dumping too high and got caught, instead of removing the extra height they apply for a modification to increase the approval height. We believe being just to the north of the pit we will experience extra noise and dust with both of these at unacceptable levels at present.

We also oppose any change to the present biodiversity areas as the northern area gives us some buffer between the mine and ourselves. Although the biodiversity area is not managed or looked after in regard to weeds and feral animals it does give us some assurance the mine will not be coming closer to us than at present. My wife Kay is quite upset and is worried that if this area is changed that the open cut will move closer to our property with certainty that we would be purchased and forced to move from our home, being mine for almost 56 years. It is not fair and reasonable that we should have to live with this over our heads causing undue stress. The company says it has no plans to mine this area at PRESENT but what in the FUTURE.

We are also disappointed that the exhibition period is for only 14 days just prior to Christmas when everyone is very busy and also only 1 advert in the local Argus to inform any residents of the application. Maybe I am just bloody dumb but I could not find on the Planning web site where I could send an objection except on this page which I presume I will not have a copy.

Thanking you Graeme and Kay Cheetham.

**MINING & INDUSTRY PROJECTS
DEPARTMENT OF PLANNING & INFRASTRUCTURE**

**MODIFICATION 08.0101 MOD 1
MODIFICATION 10.0102 MOD 1**

WE STONGLY OPPOSE THE ABOVE MODIFICATIONS

- + THE EXTENDERED AREA & HEIGHT OF THE OVER BURDEN DUMP WILL CAUSE MORE DUST & INCREASE THE NOISE TO AN UNACCEPTABLE LEVEL.**
- * THE RELOCATION OF THE CRIB HUTS & INFRASTRUCTURE IS NOT ACCEPTABLE AS THIS WILL ALSO INCREASE NOISE & TRAFFIC.**
- * EXTENDING THE TIME FRAME ON BIODIVERSITY OFFSET IS A JOKE, THEY WILL CHANGE THE AREAS WHEN IT SUITS THEM. WHEN THEY WANT TO MINE THESE AREAS.**
- * THE CONVEYOR WAS TO BE COMPLETED BY THE END OF 2011 - APPROVED 2010.
WHY DO THEY NEED MORE TIME?**
- * WE ARE SICK TO DEATH OF OBJECTING TO MINE PROPOSELS.
IT IS A NO WIN SITUATION AS THE MINES ALLWAYS GET WHAT THEY WANT.**
