Dear Elle,

We have reviewed the information supporting the proposed modification which effectively extends the period in which to replace internal haulage with a conveyor system and raise no objections. However, it is noted there are two other related modification proposals afoot for which the Department is seeking feedback by 22nd October 2012. Can you please confirm this is the case.

Regards

Mark Ihle

Mark,

The letter to Council as requested by Phillip Carroll.

Cheers,

Elle
