Dear Piers

**RE: SECTION 75W APPLICATION  
SCG STAGE 2 NORTHERN STAND**

The revised Cox Richardson Concept Design documents for the proposed Section 75W Application have been reviewed and assessed in relation to our original Construction Management Plan (CMP) submitted with the Environmental Assessment Report. Our comments under each section of the CMP are listed below. In summary, the proposed design changes do not fundamentally change the construction processes and procedures outlined in the original CMP.

CMP Heading	Summary of Change	Impact on CMP Content
2.0 Project Description	Reference to 'nominal' upgrade of Messenger Stand, maintaining tennis courts during construction and overhang of stand on to Fox Studios no longer applicable.	Temporary site hoarding to be reconfigured but does not change construction methodology or intent of CMP
3.0 Constraints	Program dates have changed and reference to overhang of stand on to Fox Studios no longer applicable.	Does not change construction methodology or intent of CMP.
4.0 Key Milestones	Program dates have changed	Does not change construction methodology or intent of CMP
5.0 Relocations	No change	None
6.0 Impact on Neighbours	Roof re-design reduces impact on Fox Studios as there is no overhanging roof structure onto their property. B-class hoarding will still be required due to overhead work but is significantly reduced.	Does not change construction methodology or intent of CMP
7.0 Consultation	No change	None
8.0 Construction Risk	No change	None

9.0 Safety	No Change	None
10.0 Traffic Management	No change	None - although dates change
11.0 Early Works	No change	None - although dates change
12.0 Site Establishment	Extent of temporary site hoarding increases to include all four tennis courts as opposed to maintaining two courts during construction.	Does not change construction methodology or intent of CMP
13.0 Service Diversions	No change	None
14.0 Waste Management	No change	None
15.0 Environment	No Change	None
16.0 Materials Handling	No change	None
17.0 Demolition	No change	None
18.0 Construction Activities	No change	None
19.0 Programme	Program dates have changed	Does not change construction methodology or intent of CMP
20.0 Ameliorative Measures	No change	None

Yours sincerely
