Haley,

I have reviewed the modification application for the Orica Kooragang Island AN Facility (08_0129 Mod 1).

I have a concern that the Orica modification has increased the IFR risk from 56E-06 to 60E-06pa at the northern boundary (see Table 1 in PHA MOD 1 Report). The modification should not increase the level of risk with the Incitec Pivot boundary.

Best regards,
Graham Woods

Subject: Orica Kooragang island: Modification application

Hi Graham

Can you please let me know if Incitec will be making an submission on the modification application for the Orica Kooragang Island AN Facility (08_0129 Mod 1)?

Regards

Haley Rich
