Executive summary.....ix

1. Introduction.....1

1.1	The project	1
1.2	Overview	1
1.3	Project delivery	3
1.4	The locality	3
1.5	Structure of the environmental assessment	5

2. Planning and statutory requirements.....7

2.1	Statutory context	7
2.1.1	<i>Environmental Planning and Assessment Act 1979</i>	7
2.1.2	<i>Other NSW legislation</i>	7
2.1.3	<i>Environment Protection and Biodiversity Conservation Act 1999 (Commonwealth)</i>	7
2.2	Environmental planning instruments	8
2.2.1	<i>State environmental planning policies (SEPPs)</i>	8
2.2.2	<i>Other environmental planning instruments</i>	8
2.3	Planning and approval process	8
2.3.1	<i>Assessment and approval under Part 3A of the Environmental Planning and Assessment Act 1979</i>	8

3. Strategic justification.....11

3.1	Strategic need	11
3.1.1	<i>Federal Government Nation Building Program</i>	11
3.1.2	<i>AusLink White Paper and National Land Transport Plan</i>	11
3.1.3	<i>AusLink Sydney–Melbourne Corridor Strategy</i>	13
3.1.4	<i>NSW State Infrastructure Strategy</i>	14
3.1.5	<i>Hume Highway Strategic Planning Study</i>	14
3.1.6	<i>Summary of strategic justification</i>	15
3.2	Need for the project	15
3.2.1	<i>Level of service</i>	15
3.2.2	<i>Capacity, performance and efficiency</i>	15
3.2.3	<i>Safety</i>	16
3.3	Project objectives	17

4. Project development and alternatives.....19

4.1	Development and evaluation of route options	19
4.1.1	<i>Preliminary route options</i>	19
4.1.2	<i>Options assessment workshop</i>	21
4.1.3	<i>Preliminary environmental investigations</i>	21
4.1.4	<i>Value management workshop</i>	22
4.1.5	<i>Further design development of Option 3</i>	22
4.2	Selection of the preferred option	23
4.3	The concept design	23

5. Project description.....25

5.1	Project overview	25
5.2	Design criteria	27
5.2.1	<i>Design parameters</i>	27
5.2.2	<i>Urban design objectives</i>	28
5.3	Design elements	29
5.3.1	<i>Detailed design development</i>	29
5.3.2	<i>Route alignment and corridor width</i>	30
5.3.3	<i>Interchanges and local road connections</i>	36
5.3.4	<i>Bridges</i>	37
5.3.5	<i>Earthworks</i>	39
5.3.6	<i>Pavement</i>	43
5.3.7	<i>Emergency and rest area facilities</i>	43

5.3.8	<i>Pedestrian and cyclist facilities</i>	43
5.3.9	<i>Lighting, fencing and signage</i>	43
5.3.10	<i>Drainage (including culverts and creek diversions)</i>	44
5.3.11	<i>Utilities and services</i>	46
6.	Construction	47
6.1	Construction activities and equipment	47
6.2	Construction programming and traffic management	51
6.2.1	<i>Staging</i>	51
6.2.2	<i>Construction programming</i>	51
6.2.3	<i>Construction traffic management</i>	51
6.3	Resource consumption	51
6.3.1	<i>Materials and spoil disposal</i>	51
6.3.2	<i>Water</i>	52
6.3.3	<i>Estimated quantities of natural resources</i>	53
6.4	Erosion and sediment control	55
6.5	Workforce and working hours	55
6.5.1	<i>Construction workforce</i>	55
6.5.2	<i>Construction working hours</i>	55
6.5.3	<i>Justification for activities in the evening and night-time periods</i>	57
6.6	Ancillary facilities and temporary works	58
6.6.1	<i>Construction work sites</i>	58
6.6.2	<i>Storage and stockpile areas</i>	62
6.6.3	<i>Haul roads, bridge access roads and temporary crossings</i>	62
7.	Consultation and stakeholder engagement.....	63
7.1	Consultation objectives and strategies	63
7.2	Consultation strategy	63
7.3	Community and stakeholder consultation activities	64
7.3.1	<i>Aboriginal focus group meetings</i>	65
7.3.2	<i>Stakeholder and agency consultation</i>	65
7.3.3	<i>Adjacent landowner meetings</i>	66
7.3.4	<i>Newsletters</i>	66
7.3.5	<i>Advertising in local newspapers</i>	66
7.3.6	<i>Public displays</i>	66
7.3.7	<i>Community information sessions</i>	67
7.3.8	<i>Options assessment workshops</i>	67
7.3.9	<i>Other communication tools</i>	67
7.4	Summary of agency, stakeholder and community issues and concerns	67
7.5	Consultation: the next steps	74
8.	Environmental risk analysis.....	75
8.1	Overview	75
8.2	Risk analysis	75
8.3	Findings	76
9.	Assessment of key issues.....	89
9.1	Flora and fauna	89
9.1.1	<i>Assessment approach</i>	89
9.1.2	<i>Existing environment</i>	90
9.1.3	<i>Impacts on flora and fauna</i>	105
9.1.4	<i>Management of impacts</i>	111
9.2	Aboriginal heritage	113
9.2.1	<i>Assessment approach</i>	113
9.2.2	<i>Existing environment</i>	114
9.2.3	<i>Impacts on items of Aboriginal heritage significance</i>	118
9.2.4	<i>Management of impacts</i>	119
9.3	Non-Aboriginal heritage	120
9.3.1	<i>Assessment approach</i>	120
9.3.2	<i>Presence of heritage items/sites</i>	121
9.3.3	<i>Assessment of significance</i>	125
9.3.4	<i>Non-Aboriginal heritage impacts</i>	128
9.3.5	<i>Management of impacts</i>	129
9.4	Hydrology	130
9.4.1	<i>Assessment approach</i>	130
9.4.2	<i>Existing environment</i>	131

9.4.3	Potential hydrology impacts	137
9.4.4	Potential groundwater impacts	142
9.4.5	Management of hydrology impacts	143
9.5	Noise and vibration	145
9.5.1	Assessment approach	145
9.5.2	Existing noise environment	147
9.5.3	Assessment criteria	148
9.5.4	Operational road traffic noise impacts	151
9.5.5	Construction noise and vibration impacts	156
9.5.6	Management of impacts	164
9.6	Social and economic	166
9.6.1	Existing social and economic environment	166
9.6.2	Social and economic impacts	171
9.6.3	Management of impacts	177
9.7	Traffic and transport	179
9.7.1	Assessment approach	179
9.7.2	Existing traffic and transport environment	179
9.7.3	Construction traffic and transport impacts	185
9.7.4	Operational traffic and transport impacts	188
9.7.5	Management of impacts	193
10.	Other environmental issues.....	195
10.1	Soils and water quality	195
10.1.1	Assessment approach	195
10.1.2	Existing environment	195
10.1.3	Construction impacts	199
10.1.4	Operational impacts	199
10.1.5	Management of impacts	200
10.2	Visual amenity and landscape	201
10.2.1	Assessment approach	201
10.2.2	Existing landscape and views	201
10.2.3	Construction visual impacts	205
10.2.4	Operational visual and landscape impacts	205
10.2.5	Management of visual and landscape impacts	208
10.3	Air quality	211
10.3.1	Existing air quality and meteorological conditions	211
10.3.2	Construction air quality impacts	211
10.3.3	Operational air quality impacts	212
10.3.4	Management of air quality impacts	214
10.4	Hazards and risks	214
10.4.1	Construction hazards and risk	214
10.4.2	Operation hazards and risk	215
10.4.3	Management of hazards and risk	215
10.5	Contaminated land	216
10.5.1	Existing environment	216
10.5.2	Potential impacts	217
10.5.3	Management of impacts	217
10.6	Sustainable management	219
10.6.1	Greenhouse gases and energy use	219
10.6.2	Waste	224
10.6.3	Management of greenhouse gases, energy and waste	224
11.	Draft statement of commitments.....	227
12.	Justification and conclusion.....	239
12.1	Justification	239
12.1.1	Summary of strategic justification	239
12.1.2	Project justification	240
12.2	Objects of the <i>Environmental Planning and Assessment Act 1979</i>	244
12.2.1	Relevance to the project	244
12.2.2	Ecologically sustainable development	245
12.3	Conclusions	246
13.	References.....	249
14.	Glossary of terms and abbreviations.....	255

List of tables

Table 1-1	Structure and content of the environmental assessment	5
Table 3-1	Project consistency with the White Paper national objectives	12
Table 3-2	Project consistency with relevant <i>National Land Transport Plan</i> strategic directions	13
Table 3-3	Project consistency with the short-term priorities of the Sydney–Melbourne Corridor Strategy	13
