15 March 2016

Dear Ms McNally

Subject: Mackas Sand Project Modification 2 - Increased Truck Movements (MP08_0142 Mod 2)

I refer to your Department's letter of 1 February 2016 referring the above project to the Planning Assessment Commission for determination under Ministerial delegation of 14 September 2011.

Ms Lynelle Briggs AO appointed Mr Andrew Hutton, Dr Marcus Lincoln-Smith and me to constitute the Commission. I chaired the Commission for the project. Attached is a copy of the Commission's determination report for your information. The Commission agrees with the Department that the modification application should be approved, subject to conditions.

The Commission has adopted the Department's recommended conditions with amendments: allowing an increase of truck movements to a maximum of 14 laden truck dispatches from the site between 5am and 6am; additional conditions to monitor fauna strikes; and two additional conditions requiring further monitoring of the site including CCTV cameras and availability of weigh bridge records to ensure more reliable assessment for compliance purposes.

The signed instrument of approval and file will be returned to the Department.

Yours sincerely

Mr Brian Gilligan
