Dear Mr Clout

Further to our previous meeting regarding the above project, La Vie Developments is now inquiring whether or not SESIAHS sees a need for any further discussion or consultation in relation to this proposal.

It is our obligation under the Part 3A process to ensure that an adequate level of consultation with your Department is carried out. In addition to our meeting with Ms Sue Brubainer and yourself, we have attended several other meetings with other arms of SESIAHS. Most recently we met with Professor George Rubin, Ms Julie Dixon and Ms Franca Fucci. Ms Fucci has commented that she could see no immediate need to further discuss the proposal, and that once a licence was gained we should meet.

La Vie's understanding is that adequate consultation has been conducted under the Part 3A process and that any further dialogue would only be carried out for the purpose of discussing and working out complimentary roles.

If it is the case that you feel that the consultation process to date is adequate and covers all aspects of the needs of SESIAHS with regard to the Part 3A application would you please advise accordingly. If you need any further information please advise accordingly so we are able to respond either by way of a meeting or written response.

La Vie would like to take this opportunity to advise that we have been successful in procuring our Private Hospital and Day Procedure Licenses and we are looking forward to working with you and your organisation.

We thank you for your time in this matter and look forward to your earliest response.

Yours faithfully

Further to our meetings and the informal advice received from Wollongong City Council in regard to the above project, we would request that the Council advise us of any further requirements it has with respect to the project and the concept plans.

If there is no further advice or consultation needed, please advise in writing to the extent that we have met our obligations in appropriately advising Council about this project.

We would like to take this opportunity to advise Council that we have been successful in obtaining our Private Hospital and Day Procedure licences and attach a copy of same.

We look forward to your earliest advice on this matter.

Sincere thanks,

Yours faithfully
