Reg,

We have had a chance to review the information that you have provided in your letter dated 14 June 2016. In relation to Condition 39A, we request provision of **one** clear, detailed plan showing the existing approved fencing and the proposed alterations to the fencing plan for our consideration. This will allow the Department to understand the changes you are seeking given that the fencing, from my advice, is already installed.

Regarding 39B – the Raptors Nest, I understand that this is no longer at the site, and as such, conditions relating to the protection of the nest are unlikely to be necessary.

Regards,
Chris
