9.6 External Finishes

dem

Schedule of External Materials and Finishes

The indicative finishes and materials proposed for the new building exterior are as follows :

Metal wall cladding :	zinc cladding system, colour “noir” (dark charcoal)
Metal facade cladding (veils) :	powdercoated aluminium, colour “silver” satin finish
Air Intake grilles :	perforated, folded powdercoated aluminium, colour “silver” satin finish
Facade Louvres :	Anodised aluminium, colour “Charcoal”
Glazing :	Equal to Viridian “Solar E S4 Blue” with translucent interlayer
Window Framing :	Anodised aluminium, colour “Satin Spanish Silver”
Stone wall cladding : (base of eastern facade)	Honed sandstone, colour “buff”
Stone wall cladding : (base of southern facade)	Honed granite, colour “black”
Footpath pavers :	Exfoliated granite, colour “black”

A sample board presenting the colours and finishes of the above materials also forms part of the submission.
