Hi Geoff,

Your advice has been received, thanks for your assistance.

Regards,

Holly Palmer | Planning Officer | Metropolitan & Regional Projects South | NSW Department of Planning and Infrastructure www.planning.nsw.gov.au

Room 307 East, 23 - 33 Bridge Street, NSW SYDNEY 2000 | GPO Box 39 SYDNEY NSW 2001 | ☎: 02 9228 6415 |

 Hi Holly

I have discussed this amendment with Council's Manager, Stephen Beattie. You are advised that the extension of hours for internal works only needs to be carefully considered with regard to residential amenity. In the Mount Street approval, the residential area was not as close as Beau Monde is to the subject site. The condition mentioned below should work but I would suggest that you add something to overcome the problem of windows directly facing Beau Monde some 24m away. The light spillage and noise if windows were open would cause impacts and complaints. I trust this is of assistance.

Regards

Geoff

 Hi Geoff,

With regard to the above modification application, in light of North Sydney Council's objection and concern raised by the Department, the proponent has advised that they no longer seek to extend the hours of construction for the purpose of 'concrete pours.' The proponent has amended the application and is seeking extended hours of construction for internal fitout works only.

The proponent's amended proposal is provided in JBA's email below (and attached copy of the report involving modifications to the hours of construction for internal fitout for 40 Mount Street provided by the proponent).

Council is invited to make a submission on the additional information to ensure Council's concerns are appropriately considered in the assessment process. In this regard, it is requested that any comments be provided no later than **9 March 2012**.

The submitted application and additional information is also available on the Department's website. See the "Response to Submissions" section:

http://majorprojects.planning.nsw.gov.au/index.pl?action=view_job&job_id=5008

If you have any queries, please do not hesitate to contact me on 9228 6415 or Ben Lusher on 9228 6552.

Regards,

Hi Holly,

Thank you for the phone call. My client has advised that he would be happy for the following condition to be imposed which is exactly the same as that imposed on the Mount Street Project (Ark) (council report with condition attached). The scope of permissible internal works sought is outlined in the proposed condition and is strictly limited to internal fit-out building works.

The proposed amendment is sought to allow the expedited construction of the building. This will not only have benefits for the adjoining residential building as it will reduce the overall construction timeframe without any adverse noise impacts, it will also have the benefit of delivering new jobs to the North Sydney commercial centre sooner.

We believe that the condition as drafted addresses issues of noise impacts and resolution of complaints, should they be received. Consequently we are of the opinion that no further advice from the acoustic consultant is required.

Should you require any further information in relation to this application, please do not hesitate to contact me on 9409 4944 or alternatively from jbuchanan@jbaplanning.com.au.

Kind Regards,
Jennie

Condition D1A – Internal Fitout Works

(a) *Permissible building works between the hours of 6.00pm to 10.00pm, Monday to Friday and 1.00pm to 10.00pm on Saturdays is limited to internal fitout works only and shall be wholly contained within the sealed building façade. Work that is permissible to be undertaken from 6.00pm on weekdays and from 1.00pm on Saturdays is limited to the following:*

- installation of plasterboard ceilings and walls;*
- painting;*
- joinery;*
- tiling;*
- floor sanding;*
- laying of carpet; and*
- installation of internal services and fittings.*

No external building works, any deliveries to the site or use of the external elevator shall be

undertaken outside the standard construction hours of 7.00am to 5.00pm, Monday to Friday and 8.00am to 1.00pm on Saturdays.

- (b) All building construction works in (a) above shall be subject to the maximum noise levels of 5dB(A) above the background,*
- (c) If investigation of complaint(s) establishes that 'offensive' noise over the 5dB(A) background limit has occurred, and the complaint is justified, then Council will require by notice to the applicant, owner and developer, that the construction hours must revert to the hours nominated in the original consent;*
- (d) The applicant/builder shall prepare a Parking Management Plan that shall specify the parking arrangements for workers after 6.00pm Monday to Friday and after 1.00pm Saturday, this shall include the total number of vehicles and the proposed location where these vehicles will be parking. All vehicles associated with extended construction hours are to park on site within the basement parking area. This Plan should also address noise abatement measures that will be in place to minimise disturbance to local residents when workers are leaving the site after the extended hours. This Parking Management Plan shall be provided to Council for approval prior to the commencement of extended construction hours;*
- (e) The applicant/builder shall prepare a Complaint Resolution Plan to ensure that all complaints from surrounding residents with regard to work carried out on site after 6.00pm on weekdays and after 1.00pm on Saturday are promptly attended to and resolved. This Complaint Resolution Plan shall be provided to Council for approval prior to the commencement of extended construction hours;*
- (f) The builder shall display, on-site, their twenty-four (24) hour contact telephone number which is to be clearly visible and legible from any public place adjoining the site;*
- (g) The builder shall letter box drop affected residents with details of their twenty-four (24) hour telephone number and provide details of their complaint resolution plan.'*
