

## Appendix D

# Flora and Fauna Species List

## Flora Inventory

Flora plot survey locations as listed below and presented in Appendix B – Vegetation Mapping.

- 1) Excelsior Reserve
- 2) Excelsior Reserve
- 3) Bidjigal Reserve
- 4) Bidjigal Reserve
- 5) Bidjigal Reserve
- 6) Beecroft (opposite Pennant Hills Golf Course)
- 7) Pennant Hills Golf Course
- 8) Beecroft Recreation Reserve
- 9) Beecroft Recreation Reserve
- 10) Beecroft Recreation Reserve
- 11) Cheltenham
- 12) North Epping
- 13) Crimea Road Bridge

**Table 1 Flora Inventory**

| Family                 | Scientific Name         | Common Name                | EPBC Legal Status | NSW Legal Status | Mount King 1992a | Mount King 1992b | Current (random meander/flora surveys) | Flora quadrat (refer to vegetation mapping in Appendix B) |
|------------------------|-------------------------|----------------------------|-------------------|------------------|------------------|------------------|----------------------------------------|-----------------------------------------------------------|
| Fabaceae (Mimosoideae) | <i>Acacia baileyana</i> | Cootamundra Wattle         |                   | P                | Y                | Y                |                                        |                                                           |
| Fabaceae (Mimosoideae) | <i>Acacia binervia</i>  | Coast Myall                |                   | P                | Y                |                  |                                        |                                                           |
| Fabaceae (Mimosoideae) | <i>Acacia decurrens</i> | Black Wattle, Green Wattle |                   | U                | Y                | Y                | Y                                      | 7, 11, 12                                                 |
| Fabaceae (Mimosoideae) | <i>Acacia echinula</i>  | Hedgehog Wattle            |                   | U                | Y                | Y                |                                        |                                                           |
| Fabaceae (Mimosoideae) | <i>Acacia elata</i>     | Mountain Cedar Wattle      |                   | U                | Y                |                  |                                        |                                                           |
| Fabaceae               | <i>Acacia falcata</i>   |                            |                   |                  | Y                | Y                | Y                                      | 7                                                         |

| Family                 | Scientific Name                   | Common Name              | EPBC Legal Status | NSW Legal Status | Mount King 1992a | Mount King 1992b | Current (random meander/flora surveys) | Flora quadrat (refer to vegetation mapping in Appendix B) |
|------------------------|-----------------------------------|--------------------------|-------------------|------------------|------------------|------------------|----------------------------------------|-----------------------------------------------------------|
| Fabaceae               | <i>Acacia filicifolia</i>         | Fern-leaved Wattle       |                   |                  |                  | Y                |                                        |                                                           |
