**MOORE THEOLOGICAL COLLEGE  
PROJECT APPLICATION – LIBRARY AND ADMINISTRATION BUILDING  
AND ASSOCIATED CAR PARK**

Dear Mark,

We have reviewed the following the drawings:

PA 0000	PA 2103	PA 3100
PA 1000	PA 2104	PA 3101
PA 2001	PA 2105	PA 3200
PA 2002	PA 2106	PA 3201
PA 2101	PA 2107	
PA 2102	PA 2108	

and the geotechnical reports prepared by Jefferey and Katauskas  
Pty Ltd.

and are satisfied the project can be built in such a way that the structures can  
be design to satisfy the relevant Australian Standards and Part B of the BCA  
2009.

In particular we are satisfied that the driveway through the existing dining  
room building can be built without effecting the stability of the lower building.

For the site B, we are satisfied the car park can be built to incorporate the  
existing wall to Little Queen Street.

Yours faithfully,  
**TAYLOR THOMSON WHITTING (NSW) PTY LTD**
