14 August 2014

Dear Ms McNally

Subject: Modification to the Thomas Street Carpark Site at Chatswood (Mod 10)

I refer to your Department's letter dated 11 August 2014 referring the above modification to the Planning Assessment Commission for determination under Ministerial delegation of 14 September 2011. I constituted the Commission for the modification.

The modification application seeks approval for the installation of 2 illuminated building identification signs to the external façade of the service apartment building (Building 2). I note Willoughby City Council raised some initial concern about the location of the proposed sign on the southern elevation of the building. In response, the proponent amended the proposal and the sign is now relocated to Level 33 on the southern façade of the plant room.

I agree with the Department's assessment and accept the recommendation to approve the modification application

The signed instrument of modification 10 and file (14/08578-1) are returned herewith.

Yours sincerely

Gabrielle Kibble AO
