

18 October 2013

The Director  
Industry Projects and Key Sites  
Department of Planning and Infrastructure  
GPO Box 39  
**SYDNEY NSW 2001**

Attention: Mark Brown

Dear Mark,

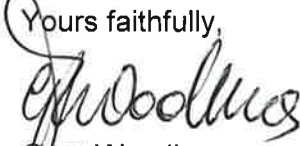

**Re: Thomas Street Car Park Site, Chatswood, Modification 8 to MP09\_0066**

I refer to your advice dated 14 October 2013 advising of the application by Karimbla Construction (NSW) Pty Ltd (Modification 8) to amend the construction working hours for the mixed use development currently being built on the Thomas Street Car Park site in Chatswood approved in MP09\_0066.

The modification is requesting extension of the construction working hours on Saturdays from 12 noon to 5 pm. This means construction working hours on Saturdays would be from 7am to 5 pm.

Council will not object to the request subject to the construction work complying with all other requirements of the Construction Traffic Management Plan (TMP) and Construction Management Plan (CMP). Activity affecting the road and the public domain around the site must be confined to the approved construction zones and access locations to the site.

If approved the change to the working hours will require amendment of the CMP and TMP prepared by the applicant for the project. The CMP and TMP was assessed and approved by Council prior to commencement of construction.

Yours faithfully,  
  
Greg Woodhams  
ENVIRONMENTAL SERVICES DIRECTOR
